Click on Banner app to start designing

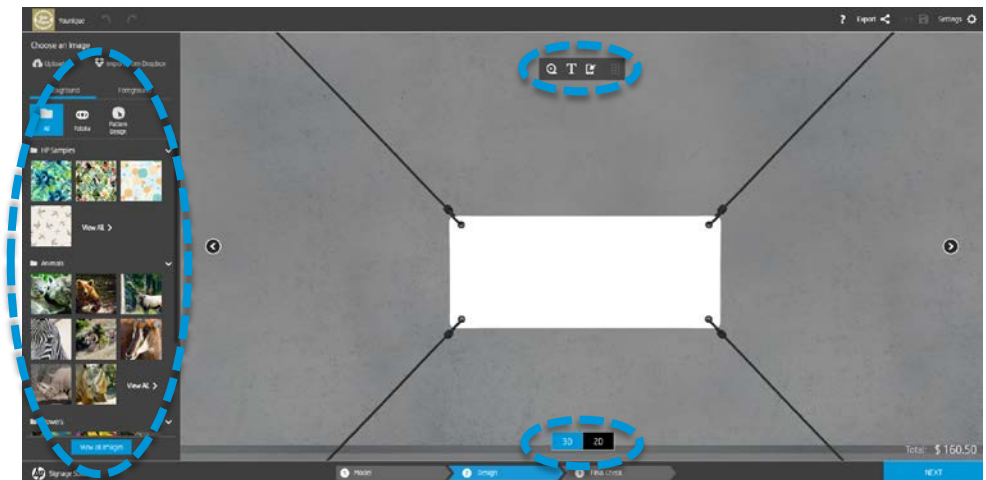

Select Banner size (wether it is a preset or a custom size)

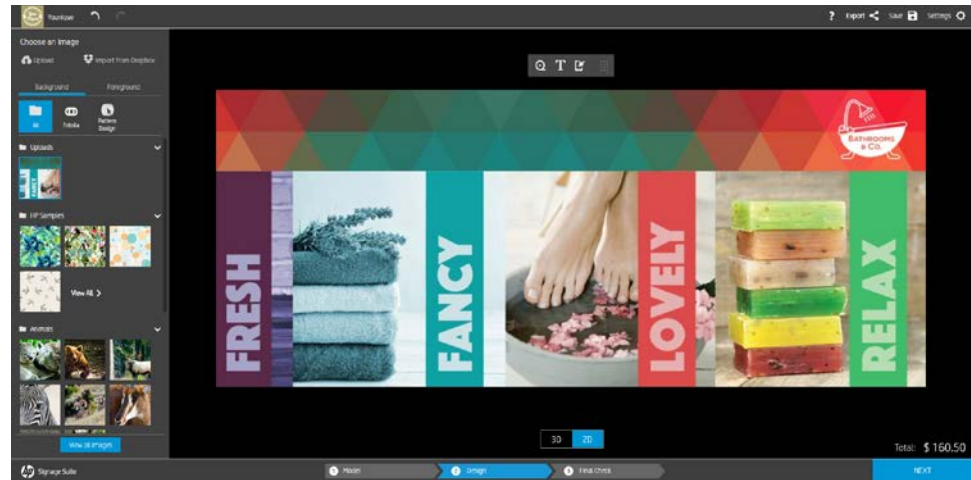

On the left you have the content, and in the central area the 3D preview with the 2D-3D switcher below. In the 3D view, you can preview your project rotating the view dragging around the area, and modify your design in the 2D view.

Also you have toolbars on top, which will allow you:

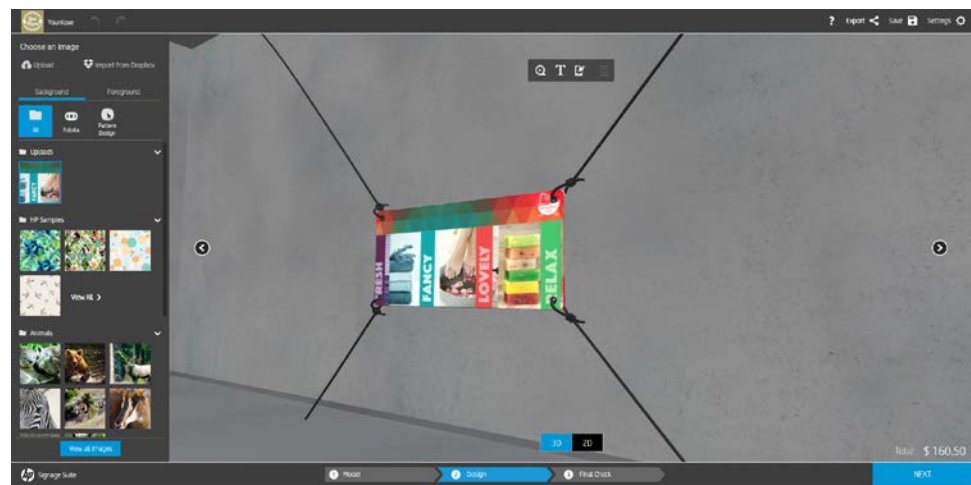

- change media
- add text
- change grommet number
- add augmented reality watermarks

You can upload your own images using the *Upload* option, or use image banks using the proper tabs.

Take into account that you will need to activate those accounts first in the Backend

You can change the substrate type using the appropriate tool, or in the final check

Click on augmented reality

Change icon color

Open Google chrome

You tube

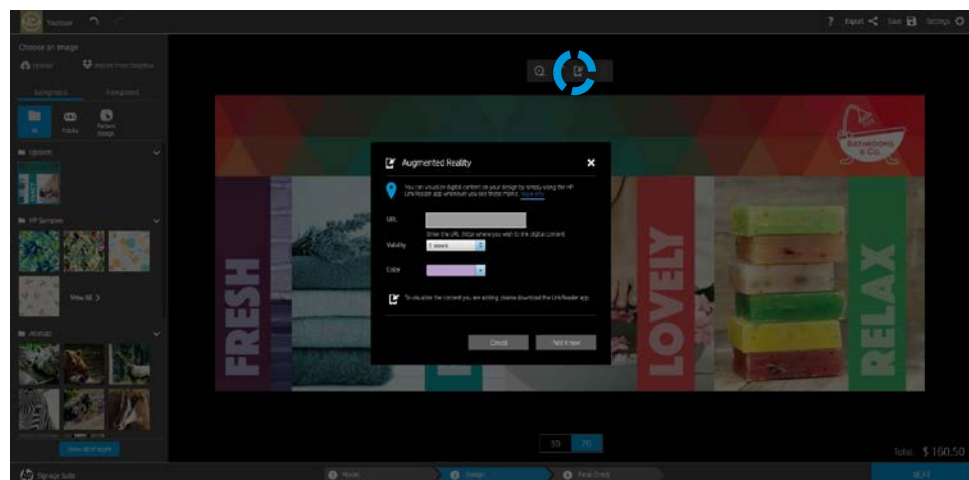

Look for suitable video

Download Link reader in your smartphone

Show the app.

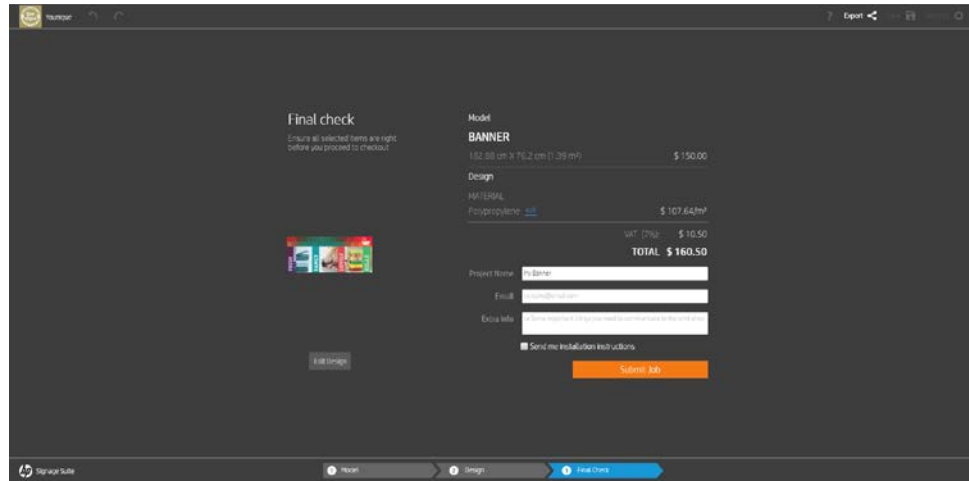

Customers just need to point on the icon and the Link Reader app will run the video

Or you're decorating you corporate office you can link official company video or website

In the final check, you will see the total price of your order and other details before you place it.

You can also enter additional comments or request installation instructions.
